Instructions for use/application

Disposable pants for light, moderate, and heavy incontinence which can be worn as normal underwear. Particularly aimed at self-assisted and active users, but is also a good option for demented, rheumatic or troubled users. Put on the disposable pants as you would underpants, without touching the inside surface of the pad. After use and when changing, tear open the sides. When both sides of the pants are torn open, roll it up and secure it with the built-in z-tape (except XS1), and throw it out. Product size recognition based on colour codes, names and numbering systems."

The Swan label, also known as the Nordic Swan Ecolabel, is an official Scandinavian environmental label. Products with the Nordic Swan Ecolabel meet stringent environmental requirements with regard to raw material production, use, documentation and safety.

FSC™ (Forest Stewardship Council) is an international non-governmental organization dedicated to the promotion of responsible forest management worldwide. FSC™-certified products are made from raw materials from well-managed forests and responsible sources. The label's traceability and integrity are upheld through stringent control measures, and by choosing FSC™-certified products, you help take care of forests and the people and wildlife that call them home. For more information, go to www.fsc.org.

Regulation (EU) 2017/745 is a regulation of the European Union on the clinical investigation and sale of medical devices for human use. It repeals Directive 93/42/EEC, which concerns medical devices, and Directive 90/385/EEC, which concerns active implantable medical devices, on 26 May 2021.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products and medical equipment.

The UKCA mark guarantees that a product is safe to use and complies with all safety precautions in line with product standards and legislation of the UK.

Leakage barriers in the leg cut and around the absorbent core help prevent leakages and provide an optimal fit.

Your guarantee that our products have been tested for ingredients which can potentially cause skin irritation. Tests conducted by an independent third-party laboratory.

The unique structure of our high performance core is designed for fast dispersion and encapsulation of urine, which results in a dry surface even after multiple voids.

Odor control is a critical factor in ensuring discreteness for the user. ABENA's incontinence products are designed and engineered to ensure that minimal Odor arises from the product.

Wetness indicator is a liquid-sensitive strip that changes colour or fades out indicating when it is time to change the product.

A combination of 100% breathability, Top-Dry and leakage protection provides a dry surface and healthy skin even after multiple voids maintaining the skin's natural pH balance.

The product is fully breathable for the comfort of the user; also during long-time use. Helps maintain skin integrity.

Unique Top-Dry Technology that provides a rapid absorption and ensures a dry surface even after multiple voids.

The product does not contain latex.

Drop system indicating absorption. The more drops, the higher the absorption. Ranges from 1 to 9 drops.

The bag is 30% PCR, which means made from plastic materials used by consumers. This will allow us to reduce our plastic waste and to help take care of the environment.
