

Antibacterial Surface Spray

Active ingredient: Lactic Acid

NEW
FORMULA

FUNCTIONS:

Cleaning and disinfecting action on all surfaces. Formula containing lactic acid: 100% plant-base active ingredient. Designed for cleaning and disinfecting different types of surface (metal, plastic, laminated, enamelled, etc.) even the ones in contact with food* (kitchen, fridge, worktop, chopping boards, etc.). Do not use on marble or limestone.

With its fresh fragrance (sweet citrus, orange and vanilla notes), the room is disinfected and pleasantly perfumed.

*Complies with the French Order of 19 December 2013 concerning the products used for cleaning materials and articles intended to come into contact with food.

DIRECTIONS FOR USE:

500 ml spray:

- Spray evenly over the surface to clean or spray on a clean and dry non-woven cloth, apply to the surface to clean.
- Leave for 5 minutes.
- Scrub or brush if necessary.
- Rinse thoroughly with drinking water.
- Apply once and repeat the application if necessary.
