Leakage barriers for extra security

TENA Slip has high-performance leakage barriers for added protection, whether the individual is standing, sitting or lying down.

The Odour Neutralizer reduces the effect of ammonia odour

The Odour Neutralizer reduces the effect of ammonia odour, giving the individual a feeling of freshness and dignity.

Easy Select colour coding indicates absorbency level

The absorbency level is colour coded and the size is clearly printed on the product and the pack for easy identification.

Wetness indicator shows when it is time to change

There is no need to open the product to find out whether it needs changing. The wetness indicator on the outside of the product turns from yellow to blue when it is time to change. Just one look at the wetness indicator will guide you.
